REGISTRAR

1. Scope of Work and Technical Specification

S. No.	Specifications
1.	The system should work directly with the existing library management software and the data for this system should be directly fetched from the SOUL 3.0 LMS, without any need to make fresh data entry into this system.
2.	The Patron Traffic Counter terminal shall be in a Metallic Kiosk of minimum 1.6mm thickness form which should be able to capture all the inward and outward traffic in the Library
3.	Patron Identification should be possible using Mifare and Biometric and Barcode and facial
4.	System height should be around 5 ft
5.	System should have a touch screen interface with minimum 22-inch screen with 8GB RAM, 240GB SSD, minimum i7 processor with windows 10 or more.
6.	System should have inbuilt 2D Barcode Scanner, Biometric Scanner, facial recognition camera and Smart Card Reader
7.	System should be able to hold minimum user data of 20,000 patrons
8.	System should be able to hold minimum transaction data of 10 million records
9.	Smart Card Interface should have Standards & Protocols: ISO 14443 A/B with up to 848 kbps transmission rate (depending on card), ISO 15693 with up to 26kbps transmission rate (depending on card), T=CL
10.	Biometric Scanner should have active platen areas of 0.96 x 0.64 in., 480 x 320 pixels
11.	Biometric Scanner should be certified by STQC and with minimum FAP20
12.	Biometric Scanner should have a minimum resolution of 500dpi
13.	Barcode Scanner should have a Scan Pattern Area Image 640 x 480 pixel array
14.	The system shall have minimum 2 USB connectors for service & maintenance
15.	The system shall have an easy accessible metal housing that can be locked
16.	The system supports barcode identification from mobile phone screens
17.	The system shall be able to check in and out patrons based on Mifare Cards, Biometrics, Barcode/QR based ID Cards & facial recognition.
18.	The system shall be audio enabled to have the possibility for extended communication with the patron
19.	The system software shall enable patrons to check in and checkout of the library using Mifare or Biometric or Barcodes or QR or facial or combination of any of these
20.	The system should have an easy to use user interface with an option to select Hindi or any other local Language
21.	The MIS software should be able to display the Library Usage statistics for usage by different Users, Branches and Departments and also on the basis of timelines and visiting reasons.
22.	System should create alerts through E-mail & SMS in case a particular patron is inside the library above a certain threshold time.
23.	System should create alerts through E-mail & SMS in case number of patrons inside the library increases beyond a certain threshold.

24.	The system should provide details of all the patrons which are inside the library currently.
25.	The system should be able to generate alerts to all the patrons in case there is an untoward event in the library and library needs to be evacuated.
26.	The system should be in a single kiosk, and peripherals should all be inside the kiosk. Only LAN cable and power cables should be output from the system
27.	It should be possible to customize the user interface so that Patrons can select the reason for which they are visiting the library, like Fine Payment, Circulation, Renewal, etc. Minimum 10 such fields can be selected.
28.	It should be possible to manually check-out patrons in case of any exceptions
29.	The software shall have a possibility to display/promote Library activities with an inbuilt Digital Signage System whenever the system is in idle mode
30.	It should be possible to create a playlist of the various items to be displayed on the screen remotely through centralized software.
31.	It should be possible to display automated content on the system through automated cloud-based contents like "Thought of the day", "This day in History", "Latest News", "Word of the Day" etc
32.	The system should support patron identification through facial recognition. Necessary hardware & software for patron identification through facial recognition has to be provided with the system without additional charges to the library.
33.	Warranty: Three (3) years On-Site OEM Warranty.

2. Eligibility Criteria

1. The bidder shall be a manufacturer or an authorized dealer/system integrator Patron Traffic Counter(PTC)
2. The Bidder/OEM must have minimum **3 live** sites in India (Preferred Central Universities/State Universities/higher academic institutions etc.) where proposed is in operation. Bidder shall submit copy of work order for the same along with successful execution report from client. The Bidder/OEM must have implemented Patron Traffic Counter(PTC) in at least three(3) Government/PSU/University libraries/Academic Libraries during the last three years.
3. The tender should be separately submitted in 02 (two) parts, i.e., Part-I TECHNICAL BID and Part-II FINANCIAL BID. The Technical Bid shall be opened on the above-mentioned date and time and the Financial Bid of only those bidders who qualify in Technical Bid shall be opened on the same date or at a later date which shall be intimated to the tenderer whose technical bids are found to be valid.
4. The bidder shall submit copies of GST Registration Certificate, PAN Card, Company registration documents, and Work completion certificates.
5. The firm must not be blacklisted by any Government or PSU organization. A self-declaration/affidavit to this effect shall be submitted.

3. Validity of Quotation

The quotation shall remain valid for 30 days from the date of submission.

4. Terms & Conditions

1. The Sealed quotations superscribed as **"Quotation for Supply, Installation, and Commissioning of Visitor Management System and integration with SOUL 3.0 ILMS."** and may be addressed to the **Registrar, Shri Lal Bahadur Shastri National Sanskrit University, B-4, Qutub Institutional Area, New Delhi-11016.**
2. Quotation received after the stipulated date and time/incomplete quotation/unsigned quotations will not be entertained. The interested representatives of the bidders may be present during the opening of the quotation by the committee.
3. The quotation must include both technical and financial details.
4. An amount of **Rs. 4000.00(Four Thousands Only)** towards earnest money in form of demand drafts drawn in favor of **"Registrar, Shri Lal Bahadur Shastri National Sanskrit University" Payable at New Delhi** has to be sent along with the quotation. The quotation received without earnest money shall be summarily rejected. The earnest money will be refunded to the bidders only after purchase order has been awarded to the successful bidder. No interest will be payable on the earnest money.
5. Submission of quotation implies acceptance of all the terms and conditions mentioned herein.
6. Prices quoted shall be inclusive of all taxes, duties, freight, and installation charges. Prices shall be quoted in Indian Rupees (INR) only.
7. The complete integration work shall be completed within 30 days from the date of issue of the Purchase Order.
8. In case of delay in integration beyond the stipulated period, a penalty @ 0.5% per week on the total order value shall be imposed, subject to a maximum of 10% of the total work order value.
9. Installation and integration shall be carried out during working hours in consultation with the Assistant Librarian.
10. The entire integrated RFID system shall carry a comprehensive on-site support of 3 years from the date of successful integration.
11. Response time for technical complaints shall not exceed 24 hours from the time of reporting.
12. The University reserves the right to terminate the contract at any stage if the bidder fails to deliver services as per the specifications or any malpractice or misrepresentation is detected. In such cases, the bidder's Performance Security may be forfeited.
13. The disputes, if any, arising out of this work will be subjected to the jurisdiction of the court in Delhi only.
14. All data, software, and system configurations accessed during integration shall remain the property of the University. The bidder shall not disclose or misuse any such information.
15. The university reserves right to reject any or all the quotations without assigning any reason thereof.

5. Training

The bidder shall provide on-site training to the library staff on operation, troubleshooting, and maintenance of the integrated RFID system.

6. Documentation

The bidder shall provide detailed user manuals and technical documentation, along with integration and configuration reports after completion.
